## Circular for Parents (Classes IX, X, XII)

20 April, 2020

Dear Parents and Children,

**We welcome all our dear children to the new Academic session. In wake of the National lockdown since the schools are closed, we at St Thomas School Khalilabad have initiated Online Classes for the students of classes IX, X & XII from 20<sup>th</sup> April 2020, so that children utilise their time fruitfully within the safe confines of their homes.** Through these technology-enabled classes, all possible effort is being made to reach out to the students, so that the academic load does not seem burdensome when the school finally reopens.

**For the students of other classes, we will start the online class from 26<sup>th</sup> April 2020. Please not that this class is for only those students who are promoted to next level.**

In order to continue the online classes, parents and students need to take care of certain points. Please abide by it strictly.

### Kindly note :

- ⇒ The school will share the Online Classes time table with all students through ERP. Please make them follow the timetable earnestly.
- ⇒ Arrange for a lap top/tab/mobile. Download prescribed App / website (NEXT LEARNING PLATFORM). School code/domain is : [stskhalilabaddemo](https://stskhalilabaddemo.com).
- ⇒ The time-table will be uploaded on ERP in advance and the students can go to the app and prepare for the class.
- ⇒ In case any student has any problem or is disconnected with the session, he/she can re-join the session with the same ID.
- ⇒ All the students MUST keep their session in MUTE MODE so that the teacher can take the class uninterruptedly and the voice does not disturb all the other participating students of the session.
- ⇒ The teacher will take doubts if any, at the end of the class. During doubt sessions the students can raise their hands or click the button on the browser and the teacher will call their names to share their query and then the teacher will answer the queries one by one. Students can also share their queries through chat option and wait for the teacher to respond.
- ⇒ The smooth conduct and delivery of class depends on the internet connection and its speed. It is advised that you keep an alternate mobile/ laptop/tablet for change-over, in case there are any connectivity issues during the session.

**Parents, as we start these classes we wish to share with you that students those who distract and disturb others by displaying objectionable pictures, or writing unacceptable comments, while the class is on, will not be allowed to continue the class.**

**They sometimes share the ID's with outsiders or other students. Kindly note that THIS IS NOT PERMISSIBLE! If they are found misusing the personal data, strict action will be taken on such students. Please advise your wards to strictly refrain from doing it; as such behaviour is neither expected nor acceptable!**

**Please note that anyone found engaging in such acts of indiscipline will be debarred from these classes forever! It is possible for us to trace the cases and take a strict action or report the matter to the Cyber-cell, if the need be!**

It's my earnest appeal to you to supervise your wards at the time of these classes and counsel them to take them seriously. Your physical presence and monitoring can make a difference!

**In these testing times, we want our children to stay safe and utilise their time constructively. Please encourage them to go through these lessons daily and attempt the assignments so that they remain in sync with their study routine.**

**Together we have to combat this national crisis and save the humanity.**

May the Online learning platform be a great success for all!

Take care and stay safe!

All the best!

**Fr Benny MV**

**Principal,**
